

# Worcester Primary & Transitional Care Resources

## Primary Care

Primary care providers (PCPs) are important for good health. Listed here are some of the Worcester primary care resources. Wait times may be long, but it is better to be scheduled in the future than to not have a provider.

Call 855-UMASS-MD / 855-862-7763 or schedule using the link below or QR code: <https://www.ummhealth.org/patients-visitors/make-appointment>

Select checkbox for providers accepting new patients using the link below or QR code: <https://reliantmedicalgroup.org/find-a-doctor/>

Find a PCP near you with the link below or QR code: <https://www.masshealthchoices.com/en/provider-search>

**Your insurance company can also provide a list of PCPs accepting new patients.**

UMass/Reliant clinics do not see patients without insurance. Community Health Centers do. Check if individual providers accept MassHealth Limited/Health Safety Net (HSN). Prescriptions for patients with MassHealth Limited/HSN can be filled at UMass or community health center pharmacies.
