Space is limited!

**Improve your English AND be trained
to become Nurse Assistant!**

You will learn about basic patient care, medical terminology, nutrition, patient care procedures, communication skills, basic anatomy, safety, and assisting with therapies. Nurse assistants are often the primary caregivers and are in close contact with residents on a daily basis. In this course, you will also gain knowledge that will enable you to provide care to those who choose to live in their own homes or in residential facilities.

You will receive:

- 180 of English Instruction
- 80 Hours of Classroom/Lab instruction
- 40 Clinical Experience

Program Includes:

- Free Tuition
- Text Book
- Scrubs
- Supplies
- Certification Testing Fee

**Monday-Friday
8:30 am-1:30pm**
