

# Free Bio-Manufacturing Technician Program this Spring!

## Why make the move to the Biomanufacturing Industry?

- Growing industry with a high demand for skilled employees
- Growth opportunities and flexible shift options
- Start a new career with a bright future

The program will provide you with the foundation necessary to begin a career as an Entry Level Bio-Manufacturing Technician.

## Timeline

Students must attend one of our 10-week sessions. In-person sessions will be held Mondays, Tuesdays and Wednesdays from 6:00-9:00 p.m.

**Session 1:** 2/28/22 - 5/2/22

**Session 2:** 4/19/22 - 6/22/22

This FREE program is open to adults who hold at least a high school equivalency. Prior work experience and the ability to work in the United States is required to be a part of the program. People who are seeking employment in bio-manufacturing are preferred.
