

A revolutionary partnership between employers, educators, and workforce boards, **reMAke 4.0** is designed to reengineer the talent pipeline for manufacturers in Massachusetts.

Manufacturing Job Readiness Program

Advanced Manufacturing:

- Companies have more job openings than there are qualified workers to fill them*
- Workers take home an average of \$20,000 more than non-manufacturing employees in Mass*
- Wage growth is expected to be up to 25% over the next 10 years in manufacturing*

REMAKE 4.0 training invites the *daring*, the *bold*, and the *free-thinkers* to experience and learn the skills necessary to make change and build your career.

Winter 2019/2020
